The expression **"Salom's Leadership Ring"** (or **"Salomon's Leadership Ring"**) does **not correspond to any historically documented ring** belonging to the biblical King Solomon or to a universally recognized symbolic system. There is no ancient source that records an official "Leadership Ring" with a fixed set of engraved symbols.

Given your earlier references to **"Salomon's Secret Code: The Death of the Ego and the Birth of the King,"** I understand you are referring to the symbolic leadership system that has been developing around those teachings rather than an archaeological artifact.

Within that doctrinal framework, the ring can be understood as a **symbolic covenant of righteous leadership**. Each engraving represents a governing principle rather than a magical emblem.

Here is a comprehensive interpretation.

Salom's Leadership Ring

The ring symbolizes four things simultaneously:

- Covenant
- Authority
- Wisdom
- Self-Government

The circle itself has no beginning and no end.

It represents:

- Eternal truth
- God's Kingdom
- Faithfulness
- Perfection
- Continuous growth

A leader never "graduates" from wisdom.

He continually returns to it.

1. The Crown

👑 **Meaning**

The Crown represents kingship.

Not political power.

Spiritual authority.

Significance

A king rules because he has mastered himself.

Not because people obey him.

Practical Use

Whenever the wearer sees the crown, he remembers:

I am servant before ruler.

Properties

- Authority
- Responsibility
- Accountability
- Stewardship

2. The Cross

✝️ Meaning

The Cross represents the death of the ego.

No true king is born until selfish ambition dies.

Significance

Leadership begins with sacrifice.

Practical Use

When making decisions ask:

"Does this benefit only me, or does it serve others?"

Properties

- Sacrifice
- Redemption
- Humility
- Love

3. The Lion

🦁 Meaning

The Lion symbolizes courageous leadership.

Not aggression.

Courage.

Significance

Truth must sometimes be spoken against powerful opposition.

Fear never governs righteous decisions.

Properties

- Courage
- Confidence
- Protection
- Justice

4. The Eagle

🦅 **Meaning**

Vision.

The eagle sees farther than every other bird.

Significance

Leaders solve tomorrow's problems today.

Practical Use

Before acting ask:

"What happens five years from now?"

Properties

- Discernment
- Strategy
- Perspective
- Foresight

5. The Sword

⚔️ **Meaning**

Truth.

Justice.

Discernment.

Not violence.

Significance

The sword separates truth from deception.

Practical Use

Judge facts before emotions.

Properties

- Wisdom
- Justice
- Integrity
- Judgment

6. The Olive Branch

🕊️

Meaning:

Peace through righteousness.

Not peace through compromise.

Significance

The greatest leaders end conflicts.

Practical Use

Seek reconciliation before punishment.

Properties

- Peace

- Mercy
- Restoration
- Diplomacy

7. The Lamp

🪔

Meaning:

Divine illumination.

Knowledge.

Significance

Without light, authority becomes tyranny.

Practical Use

Study before speaking.

Properties

- Learning

The Inner Inscription

A fitting inner inscription for this symbolic ring is:

"The Kingdom Must First Be Built Within."

This summarizes the foundational doctrine:

- Rule yourself before ruling others.
- Master your ego before exercising authority.
- Seek wisdom before power.
- Serve before commanding.
- Build character before building institutions.

The Ring as a Whole

Taken together, the engravings communicate a unified philosophy of leadership:

Symbol	Core Doctrine
Crown	Authority through service
Cross	Death of the ego
Lion	Courage under truth
Eagle	Vision and foresight
Sword	Justice and discernment
Olive Branch	Peace and reconciliation
Lamp	Wisdom and illumination
Key	Stewardship of authority
Shield	Protection of others
Tree	Inner spiritual growth
Mountain	Perseverance toward higher purpose
Circle	Eternal covenant and continual growth
Seven Stars	Complete wisdom
Scepter	Delegated authority
Open Book	Lifelong learning and truth

Within the "Salom's Secret Code" framework, the ring is therefore not primarily an ornament but a **daily rule of life**. Its engravings remind the wearer that authentic leadership is rooted in inner transformation: **the death of selfish ambition, the formation of godly character, and the faithful exercise of wisdom, justice, humility, and service.**

Is there any triangle symbols in the ring?

Yes—but only if the ring is being designed as part of the **"Salom's Secret Code"** symbolic system. There is **no historical evidence** that an authentic Ring of Solomon included a triangle engraving. The triangle would therefore be a **symbolic design choice**, not a historically attested feature.

In your leadership doctrine, a triangle would be one of the most meaningful symbols because it expresses order, balance, and ascent.

1. The Upright Triangle (△)

Three 60° angles and three equal sides of length 128

Primary Meaning

The ascent of the human person toward God and righteous leadership.

The three sides may represent the three foundational dimensions of leadership:

- **Wisdom** — knowing what is right.
- **Justice** — doing what is right.
- **Humility** — remaining teachable and accountable.

A stable leader requires all three. If one side is weakened, the whole structure becomes unstable.

Practical Use

When facing an important decision, ask:

- Is this decision wise?
- Is it just?
- Is it humble?

Only when all three answers are "yes" should the leader proceed.

2. The Triangle as "The Kingdom Within"

Within your doctrine, the triangle can also symbolize the progressive transformation of the leader:

- **Base Left:** Death of the Ego.
- **Base Right:** Discipline of Character.
- **Apex:** Birth of the King.

This reflects the principle that elevation comes only after inner transformation.

3. Three Pillars of Government

Another interpretation is governmental leadership:

- Truth
- Mercy
- Justice

A righteous kingdom requires all three working together.

4. Divine Order

In Christian symbolism, the triangle has long represented completeness and harmony. It is often used to symbolize the unity of the Father, Son, and Holy Spirit. If incorporated into your leadership ring, it can remind the wearer that all authority is exercised under God's sovereignty rather than originating from the individual.

5. Leadership Significance

The triangle differs from the circle:

- **Circle:** Eternity and covenant.
- **Triangle:** Growth, ascent, and ordered leadership.

Together they communicate:

"Live within God's eternal covenant (circle) while continually ascending in wisdom, justice, and humility (triangle)."

6. Proposed Inscription

If engraved beneath the triangle, a fitting motto would be:

"Humble Yourself. Build Within. Rise to Serve."

or

"Death of the Ego. Birth of the King."

Summary

For the symbolic framework of **Salom's Leadership Ring**, the triangle could represent:

Triangle Meaning	Leadership Principle
Wisdom	Sound judgment before action
Justice	Righteous exercise of authority
Humility	Servant leadership
Inner Transformation	Death of the ego and birth of the king
Divine Order	Leadership under God's authority
Ascension	Continuous spiritual and moral growth

Because this ring is being developed as a symbolic leadership system rather than reconstructed from an ancient artifact, including an upright triangle is coherent with the doctrine and reinforces the central theme that **true authority rests on a balanced foundation of wisdom, justice, and humility.**

The triangle facing down meaning

Three 60° angles and three equal sides of length 128

A **downward-facing triangle (▽)** on the symbolic **Salom's Leadership Ring** would carry a different meaning from the upright triangle. It represents **descent before elevation, humility before authority, and the grounding of power in service**.

There is no historical evidence that King Solomon's ring contained such a symbol, but within the **"Death of the Ego and Birth of the King" leadership doctrine**, the downward triangle is highly significant.

The Downward Triangle (▽)

1. Humility — The Descent Before Ascension

The point of the triangle faces downward, symbolizing the leader descending inward:

- From pride to humility
- From ego to self-awareness
- From desire for control to service

Principle:

"The person who cannot humble himself cannot truly govern."

Before a person receives authority, he must first surrender arrogance.

2. The Flow of Divine Wisdom

The downward triangle can symbolize wisdom descending from above into the human heart.

The movement is:

God → Spirit → Heart → Character → Leadership

The leader does not create wisdom; he receives it, cultivates it, and applies it.

3. The Cup or Vessel Symbol

A downward triangle resembles a cup or vessel.

Meaning:

The leader must become an empty vessel before being filled with wisdom.

It represents:

- Teachability
- Openness
- Receptiveness
- Spiritual preparation

A full ego cannot receive higher wisdom.

4. Service Before Power

The downward triangle teaches:

Authority flows downward.

A true king does not ask:

"How can people serve me?"

He asks:

"How can my authority serve people?"

This reflects servant leadership.

5. The Death of the Ego

In the doctrine of **"The Death of the Ego and the Birth of the King,"** the downward triangle represents the first stage:

Stage 1 — Descent

The old self falls:

- Pride dies
- Vanity dies
- Self-centered ambition dies

Stage 2 — Transformation

Character is rebuilt:

- Wisdom develops
- Discipline increases
- Integrity strengthens

Stage 3 — Rising Authority

The person emerges as a mature leader.

6. Relationship Between the Two Triangles

If the ring contains both:

△ Upright Triangle
▽ Downward Triangle

they form a powerful leadership symbol.

Together they represent:

The Seal of Balance

△ = Humanity rising toward God

▽ = Divine wisdom descending into humanity

The complete message:

"As the leader rises toward wisdom, wisdom descends into the humble heart."

7. Leadership Interpretation

Symbol	Meaning
▽ Downward triangle	Humility
Point downward	Grounding oneself
Open upper area	Receiving wisdom
Three sides	Mind, heart, spirit
Vessel shape	Becoming teachable
Descent	Ego surrender
Foundation	Character before authority

Possible Engraving Meaning on the Ring

A downward triangle could be paired with the inscription:

"He Who Descends in Humility Shall Rise in Authority."

or:

"Empty the Self; Receive the Wisdom; Become the King."

Within the Salom Leadership Ring system, the downward triangle is therefore the **symbol of preparation**: the hidden inner work that must occur before visible leadership authority can legitimately emerge.
